SOLUTIONS

SMART HOME CONNECTION

Add a Wi-Fi bridge or Tahoma Switch to connect to Google, Alexa, SmartThings, Siri, KNX and many others to integrate your blinds into your smart home and operate them away from home by a smartphone.

- Connect to smart home systems
- Control by app away from home
- Create rooms & scenes
- Automate blinds with timers
- Automate to sunrise/sunset (location based)

MOTIONBLINDS

somfy®

THREE SMART

MOTORIZATION | PULL ONLY

Blinds powered by Pull Only motors are the perfect entry to motorization. Child safe and easy to use: a short manual tug automatically sets the blinds in motion.

- Short pull sets blinds in motion
- Program one favorite position
- Set direction of rotation
- Child safe
- Easy to use

AUTOMATION | BLUETOOTH

Blinds with Bluetooth motors can be set up in a minute, operated by a smartphone and automated with preset timers, without the need for a bridge, registration or a remote control.

- Scan to set up in a minute
- Control by app in Bluetooth range (10m)
- Automate with timers (autopilot mode)
- Set direction of rotation
- Adjust endpositions

CONNECTIVITY

Tahoma Hub

WIRELESS SMART SWITCHES

Wireless Switches with Integrated Temperature Sensor.

- Thermal Automation: Automatic opening-closing based on temperature
- Touch Function (blind tilt, light and heating intensity adjustment)
- Favorite Position: Save and select your preferred blinds position at any time.
- SunProtect button for automatic opening-closing of the shading systems depending on the temperature
- Functional Double view: Front view for control, rear view for settings

Available in 1 , 2 & 5 Channels. Square and Round Frames.
